

Protecs Labs Software Download Instructions

Go to <https://protecs.scriptitonline.com>

1. If we have not created an account for you proceed to create one by clicking “create account” and filling in the required information. If you have an account insert your ID and password and click “login”
2. Click the tab “home” on the upper left
3. Click “Get the latest Protecs Labs, Inc. universal download tool”
4. Do you want to run or save this file? Click “save”
5. If you get the following “Publisher not verified. Are you sure you want to run?” Uncheck the box on the left (always show this warning) and click “run”
6. Save to Desktop
